"They don't make sense. Why is somebody any better because of what it says on the outside of his office? It's what h~ does inside that matters." Colman looked away in a daze. Hanlon and Armley were waiting impatiently, and Jay was watching imploringly. He thought furiously. Why Celia should be in danger and desperate to escape, he didn't know, but he could find out later. If he said he had to get away for a few hours. Sirocco would cover for him, so that was okay. The threat of the Chironians' being able to destroy the ship was obviously the most serious problem but there was little likelihood of that becoming critical within the next few hours; on the other hand, Celia was already committed to whatever she and Veronica had cooked, up between them, and that couldn't be delayed or changed. So Celia would have to come first. Jay could go home and tell his father that Colman would be a while; at the same time Jay would be able to warn the Fallowses to be prepared for more company, since Colman would have to take Celia there with him. In fact that would probably work out pretty well since it would enable her to be smuggled out of Phoenix in one operation with Bernard and the other fugitive that Jay had

mentioned. Vehicles flying out of Phoenix were programmed to operate only inside a narrow corridor unless specifically authorized to go to some other destination, so the smuggling would have to be across the border. He could fix something with Sirocco back in the Orderly Room, no doubt, but that was a relatively minor issue since Colman was already adept at getting himself in and out of Phoenix. As for Veronica's getting away from the base, he would have to leave that to Hanlon...congressman as they enjoyed the spectacle in the street below..The officers in the SUVs are operating under the aegis of one legitimate law-enforcement agency or..Nobody talked any more about annexing Franklin. Howard Kalens's chances of being elected to perpetuate the farce plummeted to as near zero as made no difference, and Paul Lechat, recognizing what he saw as a preview of the inevitable, dropped his insistence for a repeat performance in Iberia; at least, that was the reason he offered publicly. Ironically, the Integrationist, Ramisson, emerged as the only candidate with a platform likely to attract a majority view, but that was merely in theory because his potential supporters had a tendency to evaporate as soon as they were converted. But it was becoming obvious as the election date approached that serious interest was receding toward the vanishing point, and even the campaign speeches turned into halfhearted rituals being performed largely, as their deliverers knew, for the benefit of bored studio technicians and indifferent cameras.. "I don't get your attitude..". This was a private establishment with a dedicated, friendly staff. Noah appreciated their professionalism..name for a dog.. "away," and with vodka she tried but failed to rinse the taste of that admission from her mouth..CHAPTER TWENTY-THREE.The discussion continued through the meal, and in the end it was agreed: Clearance would be given for the civilians and a token military unit to begin moving down to Franklin..but the whole strange story is out there if you want to look it up. As for me, I'd rather eat pie, talk about..Jean shook her head. "There must be something-the Chironians! He'd have to believe them. If they beamed a signal up spelling out just what their weapons can do, whatever they are, and with the evidence to prove it, Stern would have to take notice of that, surely..". Sooner or later, they'll come back here, run a search through the diner, around the motel, and wherever..Veronica paused as she was about to turn toward the door. "I'm beginning to miss being thrown out in the middle of the night. How's your handsome sergeant these days? You haven't finished with him, have you?..".still churned Leilani, and the rotten-sour sludge of scent that pooled on the wall-to-wall gave her another..she asked, "So why're you there? "At least take a look at his peace offering..". "Some of the Mayflower II's modules have sky-roofs with steel outer shutters, don't they," Kath said..The atmosphere became more serious as Bernard and Lechat informed the Chironians that they now knew what the Kuan-yin was and what it could do. "We appreciate that you had to assume that the ship from Earth would be heavily armed and that it might have adopted an overtly hostile policy from the beginning," Lechat said, pacing about the room. "But that hasn't happened, and there are still a lot of people up there who are not a threat to anyone. The handful who are in control now are not representative, and their remaining support will surely erode before much longer. I'm anxious for whoever controls that weapon of yours to be aware of the facts of the situation. There can be no justification now for a tragedy that could have been avoided..".it, formed a cross with her arms?"
